

Agrosun[®] Red Sodiums

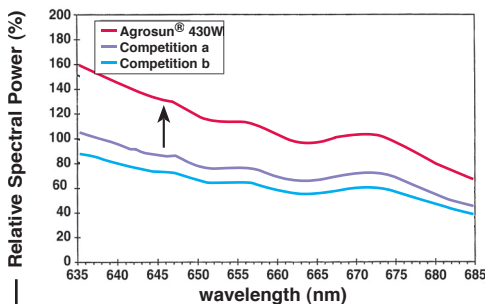

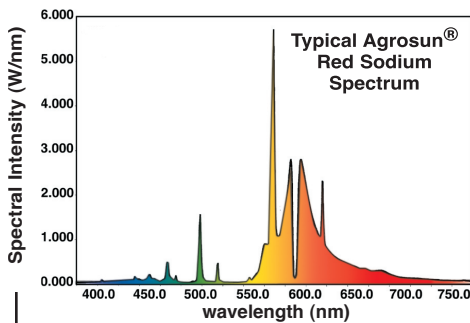

... with more RED
& more BLUE

NEW!
Higher Lumen
Output

- More, larger and better flowers
- Much longer life
- Increased crop volume

Agrosun Red Sodiums are recommended for situations where high output supplemental light is preferred.

Agrosun Red Sodiums Outperform Common Sodiums in 6" Dragon Wing Begonia Test*

- **25%** more flower clusters per plant
- **11%** more axillary branching

* Representative of Dragon Wing Begonia responses only. Other crop types will vary in response.

	INITIAL LUMENS	RATED AVERAGE LIFE HOURS	CORRELATED COLOR TEMP
Agrosun Red Sodium 430W	58,000	24,000	2K
Agrosun Red Sodium 600W	90,000	24,000	2K

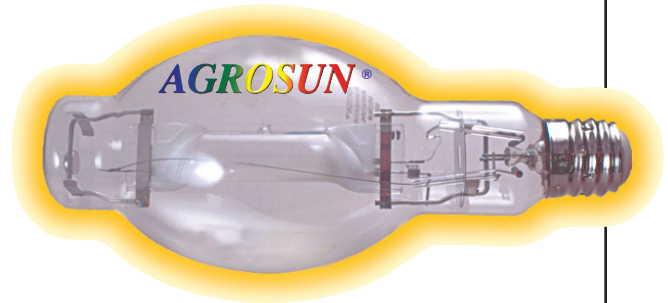

Agrosun® Halides

... deliver more

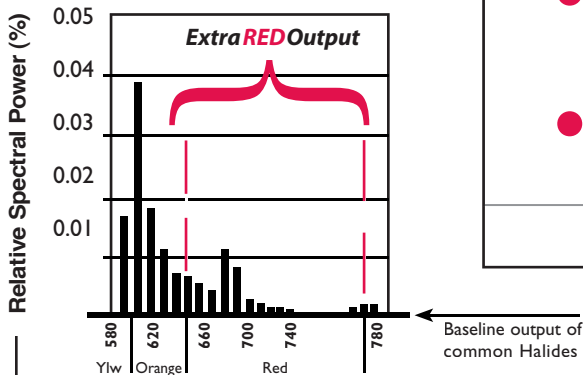

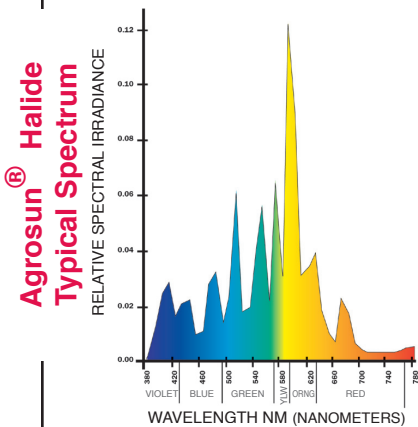

RED for flowering

& are the **BEST**

single bulb for plant growth

Agrosuns provide the full spectrum for healthy growth with more red than any other halides for flowering.

Agrosun Halides Outperform Common Sodiums in 4.5" Geranium Test*

- **45%** *more flowers produced*
- **25%** *more axillary branching*

* Representative of Geranium responses only. Other crop types will vary in response.

		INITIAL LUMENS	RATED AVERAGE LIFE HOURS	CORRELATED COLOR TEMP
